A. corr.

24.3.5 The right to harvest shall extend and may be exercised over all the Territory, subject to the limitations stipulated at Sub Section 24.12, where this activity is physically possible and does not conflict with other physical activity or public safety. A. corr.

24.3.6

a) The words “conflict with other physical activity” shall mean actual physical conflicts or physical interference but shall not include conflicts or interference of any other nature which may be perceived, anticipated or declared by any means whatsoever. Without limiting the generality of the foregoing, the creation or existence of parks, reserves, wilderness areas, ecological reserves and the grant or existence of concessions or rights with respect to forestry or mining shall not in themselves be considered conflicting physical activities and the Native people shall continue to have the right to harvest in such areas.

b) The creation or existence of wildlife sanctuaries shall operate to exclude all or part of such sanctuaries from the right to harvest but only with respect to those species for whose protection such sanctuaries are created and for such periods of time and/or season when such protection is required.

24.3.7

- a) The right to harvest shall not be exercised in lands situated within existing or future non-Native settlements within the Territory.

- b) Subject to Sub-Section 24.9 of this Section, the rights of present outfitters and present holders of fish and game leases shall be respected for the duration of the current term of their present leases or permits. At the expiration of the current term of such leases or permits, the terms shall be reviewed by the Coordinating Committee to minimize conflicts with harvesting activity. This provision shall be without prejudice to any agreement between an outfitter, lessee or permit holder and the interested Native party.

24.3.9 Restrictions on the right to harvest for reasons of public safety shall apply primarily to the discharge of firearms, to the setting of large traps or nets in certain areas, and to other dangerous activities having due regard for others lawfully in the vicinity. 24.3.17 Subject to the restrictions and controls with respect to non-Native hunting and fishing, provided for in this Section, the right to harvest shall not be construed to prevent or limit access to the Territory by non-Natives in accordance with the provisions found elsewhere in the Agreement.

24.3.18 The exercise of the right to harvest shall not be subject to the obtaining of permits, licenses, or other authorization, save where expressly stipulated otherwise in this Section. Where, by exception, for the purposes of management, leases, permits, licenses or other authorizations are required by the responsible Minister or required on the recommendation of the Coordinating Committee, the Native people shall have the right to receive such leases, permits, licenses or other authorizations at a nominal fee through their respective local governments.

24.3.19 Subject to the provisions of this Section, the Native people shall have the exclusive right to trap in the Territory, as part of their right to harvest. This right to trap shall include the right to trap for all commercial purposes.

24.3.20 Notwithstanding the preceding paragraph in cases where Native people have not exercised their exclusive right to trap within a part of the Territory for an extended period, and where trapping activity in such part of the Territory is necessary for the proper management of a species, Québec may, only upon the advice of the Coordinating Committee and after giving reasonable notice to the interested Native party through the Coordinating Committee, permit non-Natives to exercise the necessary trapping activity in such part of the Territory, when the interested Native party fails to do so. Such permission shall be subject to an agreement between the interested Native party and Québec; failing such agreement the responsible Minister may, only upon recommendation of the Coordinating Committee, permit non-Natives to exercise such activity, and in such case the Minister shall establish the terms and conditions upon which such activities shall be exercised provided such activity shall not be permitted for a period exceeding four (4) years. At the expiration of said period, the interested Native party shall have the right to resume the exercise of its exclusive right to trap on that portion of the Territory, failing which the foregoing procedure shall apply.

JBNQA, par 24.3.20

A. corr.

24.3.21 The exclusive right to trap shall not apply to the area of the registered traplines in the southern portion of the Territory indicated on the map attached hereto as Schedule 1 of this Section.

24.3.22 This exclusive right to trap shall be without prejudice to the trapping rights, if any, exercised by the native people not party to the Agreement on the beaver reserves presently allocated to them.

JBNQA, par 24.3.22

A. corr.

24.3.23 The exclusive right to trap shall not exclude the possibility of snaring of hare by non-Natives in and around non-Native settlements within that part of the Territory below the 50th parallel of latitude.

24.3.24 Québec and Canada shall take all reasonable measures, within the scope of current programs or those programs which may from time to time be established, including economic measures, to assist the Cree and Inuit parties in establishing trappers' associations, as well as a Native controlled and run trapping industry including functions necessary to the operation of such an industry, such as marketing, promotion, registration, collection, transportation, grading, dressing, dyeing, manufacturing etc.

JBNQA, par 24.3.24

A. corr.

24.3.25 The present system of Cree traplines and the disposition of the beaver reserves presently allocated to the Crees shall continue unless otherwise agreed to by the interested Cree community or communities.

The Coordinating Committee shall advise and be consulted in this process.

24.3.30 A minimum of control or regulations shall be applied to the Native people, which shall mean inter alia that :

- a) When the Coordinating Committee or the responsible Federal or Provincial government decides that control of harvesting activities is necessary, the Coordinating Committee or the responsible Federal or Provincial Government shall first formulate guidelines and/or advisory programs with respect to the control of such activity. Such guidelines or advisory programs shall be encouraged and promoted by the local and/or regional governments, under reserve of the right of the responsible Federal or Provincial Government to impose such controls in the event that such guidelines and/or advisory programs do not prove to be effective.
- b) When the Coordinating Committee or the responsible Federal or Provincial Government decides that regulations are necessary the responsible Federal or Provincial Government shall make regulations with a minimum of impact on the Native people and harvesting activities by taking into account the impact on such factors as local native food production, the role of tallymen and the organization and boundaries of Cree traplines, accessibility of different sectors of the Native populations to harvestable resources, efficiency of harvesting, cost of harvesting and Native cash incomes.
- c) In general, the control of activities contemplated by this Section shall be less restrictive for Native people than for non-Natives.

24.3.31 Neither the responsible governments nor the Coordinating Committee shall change or affect the Hunting, Fishing and Trapping Regime in such a way as to infringe upon the rights of the Native people established by this Section. Without limiting the generality of the foregoing, this provision shall apply to the responsible Provincial and Federal Ministers, the provincial and federal departments involved and the individuals, bodies or agencies administering the Hunting, Fishing and Trapping Regime.

24.6 Priority of Native Harvesting

24.6.1 The responsible governments and the Coordinating Committee shall apply the principle of priority of Native harvesting, as set forth in this Sub Section.

24.6.2 The principle of priority of Native harvesting shall mean that in conformity with the principle of conservation and where game populations permit, the Native people shall be guaranteed levels of harvesting equal to present levels of harvesting of all species in the Territory.

- a) Such guaranteed levels shall be established by negotiations between the Native parties and the responsible Provincial or Federal Government through the Coordinating Committee (and the normal voting procedures shall not apply in such case) and shall be based principally upon the results for the “Research to Establish Present Levels of Native Harvesting” projects presently under way and to be continued during the four (4) years following the execution of the Agreement. The said parties shall establish such guaranteed levels within five (5) years of the execution of the Agreement.
- b) Upon the execution of the Agreement, the said parties referred to in the above sub-paragraph shall forthwith establish by negotiations interim guaranteed levels of Native harvesting based principally upon the available results of the said research projects. 24.6.3 In applying the principle of priority of Native harvesting, the responsible governments and the Coordinating Committee shall, in any given year, in allocating quotas for harvesting and non-Native hunting and fishing or in applying other game management techniques, assure that :

- a) If game populations permit levels of harvesting equal to the guaranteed levels established pursuant to paragraph 24.6.2, the Native people shall have the right to harvest up to the said guaranteed levels.
- b) In allocating wildlife resources for harvesting or non-Native hunting and fishing over and above the said guaranteed levels, the harvesting needs of the Native people and the needs of non-Natives for recreational hunting and fishing shall be taken into account.
- c) Subject to sub-paragraphs a) and b) there shall always be some allocations of species for non-Native sport hunting and sport fishing.
- d) If game populations do not permit levels of harvesting equal to the guaranteed level established pursuant to paragraph 24.6.2, the Native people shall be allocated the entire kill and may allocate a portion of this kill to non-Natives through recognized outfitting facilities.

a) In conformity with the procedure provided in paragraph 24.6.2, the present levels of harvesting of migratory birds shall be established.

b) The present level of harvesting shall be combined with the present level of non-Native hunting of such birds in the Territory to establish the total present kill for the Territory.

c) Based upon the total kill figures for each migratory bird population and the total kill in the Territory for each migratory bird population, there shall be a determination of the percentage of the total kill from each population now being taken in the Territory.

d) This percentage figure shall constitute a guarantee so that in any given year the Territory would be guaranteed at least the same percentage of the total kill from each population as is presently hunted and harvested.

e) Within the Territory itself, the principle of priority for Native harvesting shall apply to the allocation of quotas or use of other management techniques in such a way as to ensure that the Native people are guaranteed a harvest based on present levels of harvesting of migratory birds.

f) In any given year when populations permit a kill for the Territory higher than the guaranteed allocation equal to present levels of harvesting, the Native people shall be allowed a harvest equal to the guarantee based on present levels of harvesting, and the remainder of the permissible kill for the Territory shall be divided in such a way as to ensure primarily the continuance of the traditional pursuits of the Native people and secondarily so that non-Native people may satisfy their needs for recreational hunting.

g) In any given year when the populations permit a kill for the Territory lower than the guaranteed allocation for the Native people equal to present levels of harvesting, the entire kill for the Territory shall be allocated to the Native people, who shall have the right in turn to allocate a portion of this kill to non-Native hunting through recognized outfitting facilities.

h) This guarantee shall not operate to endanger migratory bird populations.

i) This guarantee in itself shall not operate to prohibit or reduce hunting of migratory birds elsewhere in the flyway or in Canada.

The Coordinating Committee shall be involved in the establishment and review of such controls and rules and supervise the procedures concerning the implementation and enforcement thereof. All such assets not purchased by the Native people and not removed by the outfitter within a period of two (2) years shall thereafter be considered abandoned by such outfitter to Québec.

iii) In the event that the Native people decide to require government owned or operated outfitting facilities to cease operations, such facilities shall be transferred gratuitously by the government to the interested Cree band or interested Inuit authority, provided no transfers may be made by the government to individuals.

f) Notwithstanding the right of first refusal of the Native people for outfitting facilities set forth in paragraph 24.9.3, outfitters required to cease operations in Categories I or II pursuant to paragraph 24.9.2 and who wish to relocate in Category III, shall have the preferential right to select sites and facilities subject to the approval of the Coordinating Committee.
